

GREEN-E® CLIMATE CERTIFIED CARBON OFFSETS

Terrapass Custom Mix

2025 Carbon Offset Product Content Label

The Carbon Offset Content Label represents the mix of project types, locations and verification programs that will be used to supply your offsets. The actual percentages or metric tons of GHG emissions reductions by type may vary by a small percentage. In the case of a significant variance, the Seller of the Certified Offsets is obligated to provide you with more accurate historical disclosure. For more information see the Green-e® Climate Code of Conduct available at <https://www.green-e.org/>.

PROJECT TYPE	PROJECT VERIFICATION	PROJECT LOCATION	% OF PROJECT
Green-e Climate Any	ACR, CAR, VCS, or GS	Green-e Climate Any	100%
The emission reductions supplied will be created in: 2017 -2024			Total: 100%
The term 'Green-e Climate Any' represents all potential combinations of approved project types and Endorsed Programs under the Green-e® Climate Standard. For a full list of approved project types and Endorsed Programs, visit the Green-e® website at: www.greene.org/programs/climate/endorsed-programs			

These carbon offsets are certified by Green-e® Climate, which require companies to provide their customers with this notice of Price, Terms and Conditions of service. For more information about Green-e Climate, visit <https://www.green-e.org/programs/climate>, email climate@green-e.org.

- **Green-e Climate Certified Terrapass Custom Mix** is a carbon offset product. One carbon offset represents one metric ton of carbon dioxide-equivalent emissions reductions. The verified GHG emissions reductions you purchased are sourced from projects that have been validated and registered under high-quality project standards.
- The Carbon Offset Content Label represents the mix of offsets we have contracted to provide. Actual percentages of GHG emissions reductions may vary by a small amount. In the case of significant variance, Terrapass is obligated to provide you with more accurate historical disclosure.
